

Cloudy Bot

Discord integration - BlueStacks X

Introducing Cloudy

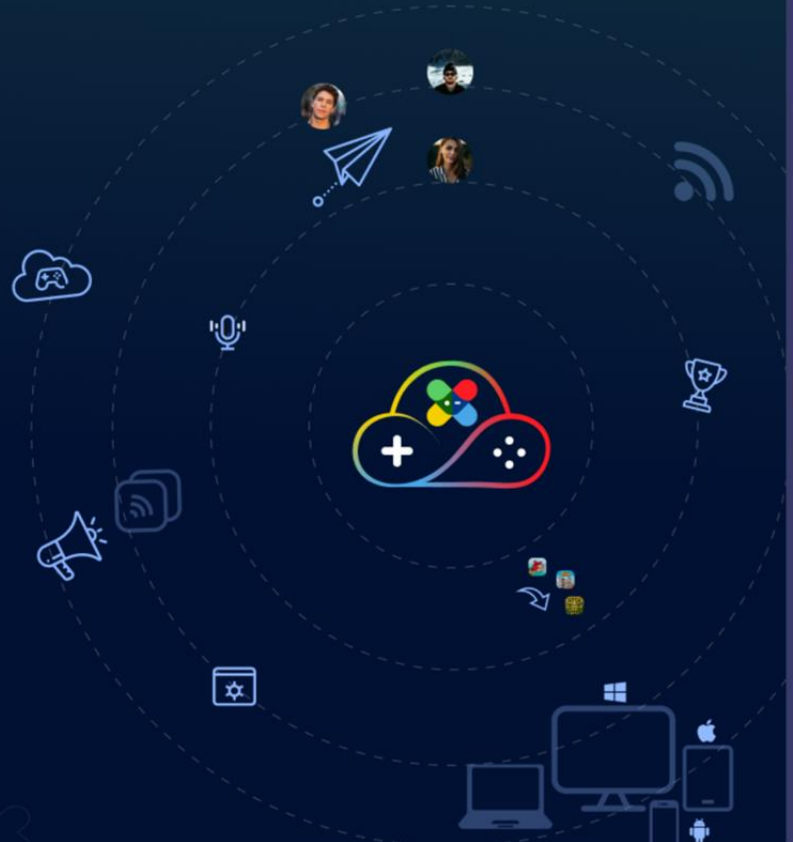

The first Gaming Platform built for Discord

Add a gaming server to your discord server and Enjoy 1-click game play from your discord's cloud gaming server.

Connect & share experience with other members of the server.

[Invite to Server](#)

A lot more existing features on the way

Cloudy **BOT** Today at 20:35

Cloudy is ecstatic to be added to your server. 🥳

Cloudy is the first gaming platform built for discord. We have added a cloud game server to your discord server.

You can choose which games to add to your server from the game recommendation of the day in your [#cloudy-updates](#) channel. Once you add the game to your server, you can view your games and play them on cloud!

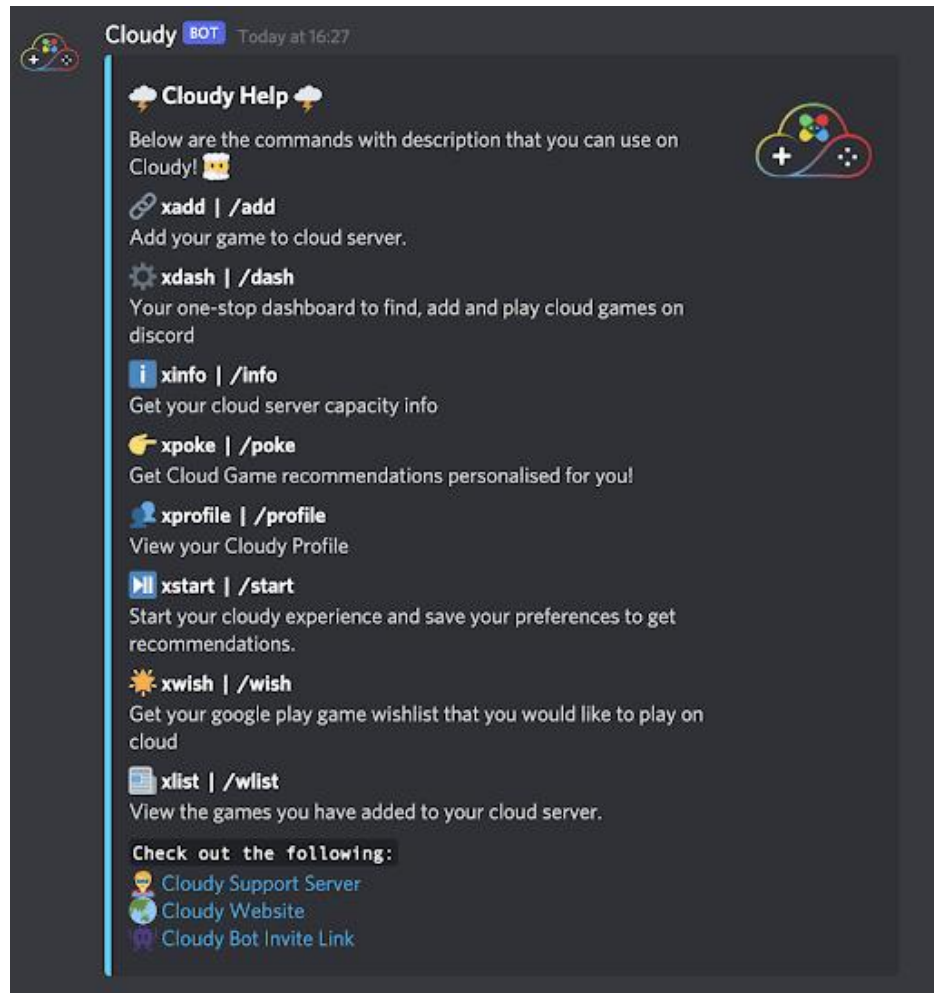

For more information and command usage, use **xhelp**, see you on the other side of cloud. ☁️

As part of early access, your server gets a free cloud boost!!

Welcome Message on Discord

Cloudy help command

Your server is eligible for a cloud server boost as part of early access!
Use *xlist* to view and play the game added to your cloud server.

Feed Message Example

List Command

The screenshot shows a Discord chat interface with a dark background. At the top, a user named 'supernova' (with a dog avatar) sends a message 'xlist' at 16:31. Below it, a bot named 'Cloudy' (with a cloud and controller icon) responds with a 'Cloud Game List' command. The bot's message includes a title, a description, and a list of games with 'Play on Cloud' links. A blue vertical bar is on the left side of the bot's message box.
